Question 1

a=6 , b=9, c=14 , flag=1

1) c == a+b || !flag
14 == 6+9 || ! 1

(*) not short circuit evaluated

2) a != 7 && flag || c >= 6
6 != 7 && 1 || 14 >= 6

(*) short circuit evaluated due to, 6 != 7 && 1 = 1 and 14 >= 6 not evaluated

3) ! (b <= 12) && a % 2 == 0
! (9 <= 12) && 6 % 2 == 0

(*) short circuit evaluated due to ! (9 <= 12) == 0 and 6 % 2 == 0 not evaluated

4) ! (a > 5 || c < a+b)
! (6 > 5 || 14 < 6+9)

(*) short circuit evaluated due to 6 > 5 = 1 and 14 < 6+9 not evaluated.
